

Balanced Wellbeing LLC CCM/BHI Consent

Chronic Care Management (CCM) is defined as the non-face-to-face services provided to Medicare beneficiaries who have multiple (two or more), significant chronic conditions. In addition to office visits and other face-to-face encounters (billed separately), these services include communication with the patient and other treating health professionals for care coordination (both electronically and by phone), medication management, and being accessible 24 hours a day to patients and any care providers (physicians or other clinical staff). The creation and revision of electronic care plans is also a key component of **CCM** and can be provided to the Medicare Beneficiary.

I consent to CCM services and understand that my care plan will either be given to me or mailed to my home address on file.

Behavioral Health Integration (BHI) services include an initial assessment by the care team, consulting with relevant specialists which would include conferring with a psychiatric consultant as well as the administration of applicable validated rating scales, systematic assessments and monitoring. **BHI** also includes care planning between you and the care team. A BHI Care Plan will be created and provided to you accordingly.

I consent to BHI services and understand that my care plan will either be given to me or mailed to my home address on file.

Patient Name: Harsh Panwar

Facility Name: undefined

Room#: 1

I agree to have Balanced Wellbeing LLC as my psychiatric and psychotherapy provider for evaluations and follow ups on me as needed. I understand that a Part B copayment may apply and that I may stop Balanced Wellbeing LLC and **CCM or BHI** Services by either providing verbal or written notice at any time. I understand that I would remain on the program until the end of the calendar month in which notice was provided by me.
